

# Confluence Language Switcher

The "Confluence Language Switcher" extension provides a little tiny icon at the top navigation bar to change the language for the current logged in user.

## Features

- Change the language for the current logged in user
- Language list is automatically extended if new language packs are installed
- Support for a wide range of Confluence versions
- Usable with all Confluence default Themes and maybe others too
- **Compatible to other Extensions**
  - [Confluence Subspace Topnavigation](#)
  - [JIRA and Confluence Universal Header](#)
  - [Confluence Cute Clouds Theme](#)
  - [Confluence Favorite Menu](#)
  - [Confluence Metadata Box Extension](#)
