

JIRA Projects and Watches Sitemap

The "JIRA Projects and Watches Sitemap" extension creates a sitemap inside the JIRA footer and shows up all available projects as well as the current watched issues in alphabetical groups.

Features

- Fast access to projects and watches
- Alphabetical grouping
- Footer color and text changeable via extension properties

Extension Properties

Property	Description
footer.background.color	Background color of the footer area
text.color	Text color of the footer area
link.color	Link color of the footer area
