The "Confluence Horizontal Scollbar" extension provides the possibility to scroll content (e.g. with large images and tables) in horizontal direction.

Features

- Add a scrollbar for pages and blogposts at the bottom of window
 - scrollbar is only visible if content is large enough for scrolling
 - div elements in content container will be styled with "overflow: visible" to prevent autoscrolling of every large table or image
- Support for a wide range of Confluence versions
- Usable with Confluence "Default Theme" and "Easy Reader Theme" and maybe others too
- Compatible to other Extensions inter alia
