## Issue Rating for JIRA

Did you ever wish there was an easy way to receive feedback from other JIRA users directly on your issue?

We have created a new custom fieldtype "Issue Rating" to facilitate just that. Issue Rating allows every user separately to give feedback on an issue. This takes the form of a simple 5 star rating.

Now you can:

- Provide user-specific ratings on an issue with a 5 star system
- Search for the number of ratings, rating average or the resulting score
- Order by rating average in the issue navigator
- Display the ratings using JIRA macros in Confluence

## User's Guide

The [User's Guide](#) is intended for anyone using Issue Rating in JIRA. It provides you with all necessary information on how to use the add-on.
